

**Remarks**

Please amend the first full paragraph on page 3 of the previous response filed July 13, 2007, to the following:

--Furthermore, Applicants would like to point out to the Examiner that, in the arguments for his rejection of claim 5, the Examiner admits that "Kuchi does not disclose decreasing the number of antenna." Selecting subgroups of the available subgroups of antennas decreases the number of transmitting antennas, and if Kuchi, as admitted by the Examiner, does not decrease the number of antenna, then Kuchi does not select subgroups of the available subgroups of antennas.--

Respectfully submitted,  
Mitsubishi Electric Research Laboratories, Inc.
